I am writing to say that I will stand as a co signer of Dan Kegel's open letter to the DOJ. <http://www.kegel.com/remedy/letter.html>

There are many problems with the way Microsoft has conducted themselves over the years and I feel that the PFJ is inadequate and often inaccurate. I greatly appreciate Dan Kegel's work on his letter. If I had confidence that my letter would be thoroughly read by the DOJ I would freely express my own opinions and understanding of this case but instead I feel resigned to simply co sign this open letter and hope that the Mr. Kegel's work is more effective than my own voice.

I feel I must also say "Thank You" to Jeremy White for his call to action:
